Meaningful Experiences

REVIVE- 2017-2019

Temporary caregiver to special-needs children and their siblings. Duties included interacting with the children and addressing their needs (such as placing them in their preferred environments, assisting them in using the bathroom, and feeding them).

Ambassadors, TAMS- 2017-2019

Recruiting potential TAMS students, giving tours of the UNT campus to interested TAMS students and their parents, facilitating interview days, and mentoring incoming TAMS students.

Crisis Text Line- 2020-current

Trained and certified crisis counselor. Volunteers communicate with people in crisis and help them find relief during times of crisis.

Shadowing Dr. Saleem Akbar, MD- Summer 2019

Responsible for taking notes during patient visits regarding their vitals and medications, writing in patient notes in the patients' computer charts under supervision, and learning treatments and symptoms of cardiovascular conditions through echocardiograms and cardiovascular medications.

Coursework- Computational Biology and Bioinformatics (Spring 2021)

Students learned various statistical analysis through R and Python. Throughout the course, highlighted topics including (but not limited to) creating statistical visualizations, performing various hypothesis tests, and exploratory data analysis.

Employment / Research

Providence Energy, LLC- May 2018-August 2018

Summer Intern

Summer-long project developing a color-coding algorithm for the company's mineral organization system. Color-coding system had over 1500 permuted color combinations that organized the company's most important documents and files.

Craig Ranch Fitness and Spa- May 2019-August 2019

Camp Counselor • Child Care Associate

Worked as a child care associate and summer camp counselor taking care of children aged 3-13 years.

Project SEED Research Assistant- December 2020-present

Data Analysis

Project SEED is a research project at UT Austin that studies the social, emotional, and educational development (SEED) of Mexican-American children who translate for their non-English-speaking parents. Responsibilities include verifying and analyzing data collected from interviews with the project participants, recruiting prospective research assistants through presentations, and working with other research assistants in different tasks.
